CAREER CONTOUR

I am unwavering, meticulous, and highly competent in the **IT Industry** I have a consistent record of transporting the best results-driven work with a proven ability to implement my work in an organized manner for **13+ years** of my successful career.

My expertise:- **IT Industry – Data Integration, BI Visualization, Business Analytics, Business Intelligence (BI), Data Analysis, Data Modeling, Data Visualization, Project Management, Design & Development, Quality Assurance, Sourcing and Time Management, Service Delivery.** I have in-depth knowledge of all ethics of management. I possess effective communication skills and am a team player with strong Organizational, Logical, and Problem-Solving Abilities.

I have great exposure to working with large-scale organizations like **Wipro Technologies., Concentrix.** I have well-versed skills in analysis, problem-solving, and coordination, which make me so successful and dedicated. Strong influencing and negotiation skills coupled with a proven ability to think in and out of the box, generating new solutions.

I have commenced my profession as an **Executive** and risen myself as **Technical Lead** reputed company. I would like to see myself growing with the passing years of hard work and dedication. I have been awarded many accolades for my result-oriented hard work.

Armed with a multitude of competencies and work experiences, I am confident to carry forward any organization's vision & objectives with sufficient ease and dedication to my job responsibility.

EXPERIENCE

2018 – Till Date | Wipro Technologies | As Technical Lead

Responsibility:-

- Led the setup of product environments, ensuring adherence to prerequisites for comprehensive signoff of BI Analytics Dashboards.
- Managed and guided a team of 4 Database and Application resources, ensuring timely completion of projects.
- Collaborated closely with developers to integrate ITSM tools like Service Now or Remedy with MS SQL databases, enhancing overall system efficiency.
- Guided developers in maintaining and optimizing ETL processes within the SQL Database.
- Managed all incremental load scripts using Python for efficient data handling.
- Implemented scheduling best practices for task activities, enabling auto-updating of data for real-time visibility in QlikSense Dashboards.
- Developed and delivered analytical dashboards, accurately representing SLAs, KPIs, and CLS activities.

- Demonstrated expertise in QlikSense Administrative activities, providing access to specific user groups.
- Conducted UAT environment testing to ensure specifications were met before publishing to Production environment Servers.
- Played a key role in full project life cycle implementation for QlikSense dashboards, collaborating with senior management to define migration goals and objectives.
- Created data connections to diverse sources (SQL Server, Oracle, ITSM Tools, flat files) in QlikSense through ODBC/OLEDB connections.
- Executed comprehensive steps in the development process, including designing, Developing, testing, debugging, and implementing Data Models based on specified requirements.
- Developed QlikSense Applications utilizing features such as KPI Objects, Pivot Tables, etc., contributing to enhanced data visualization and reporting capabilities.
